

USW GASWORKERS Solidarity Lobby Day October 25, 10:30am

Meet at the State House, 24 Beacon St, Boston

1,250 skilled Gasworkers have been locked out of their jobs at National Grid since June. This highly profitable corporation has cut workers off from their healthcare and wants to force families into economic insecurity in order to enhance their bargaining leverage. What National Grid is doing is wrong, and we can't let it happen.

Rally with community and labor organizations and workers across all sectors to ask legislators to hold National Grid accountable for safety violations, and end the lockout to protect public safety.

**"When all unions and community work together - in every job and every industry - that is when we have power."
-Steven A. Tolman, President**

Schedule

10:30am Rally outside the State House.

11am Meet with your State Senators and Reps

If you arrive at 11 or later or if you need help during the event, go to room 222 in the State House for assistance and instructions.

Sponsored by United Steel Workers and
The Massachusetts AFL-CIO
