

# ***Covid-19 Vaccines for Letter Carriers “Wake-Up Call”***

## ***To Massachusetts Governor***

### ***Charlie Baker***

#### ***It’s Time To Give Letter Carriers A Shot!***

Letter carriers have been on the front lines of the Covid-19 pandemic for over a year now, but Governor Charlie Baker is refusing to follow the CDC recommendations of immediately placing these dedicated public servants on the list to receive one of the COVID-19 vaccines. While many Massachusetts residents remain at home, they have faithfully continued to perform their duties in-person, diligently serving the Commonwealth in every community, at every doorstep, every day! They have been immensely patient, but when other groups are now leapfrogging over them to be vaccinated, the time for hoping to hear a positive response from the governor’s office, as well as our representatives throughout the state has passed. It is now time for Letter Carriers, their families, friends, and customers to send a collective “Wake-Up Call” as constituents. We need to remind the governing class that working class people are watching, and our voices will be heard either now, or on Election Day!

Please reach out to your co-workers, family, friends, neighbors, and customers for a “Working Class Week of Action for Letter Carriers” by flooding Governor Baker’s office with phone calls, and emails starting March 15th thru March 19th, 2021 demanding the immediate inclusion in the current Phase to make an appointment to receive one of the many vaccines now available. Your participation in this effort is crucial to successfully reach the powers that be, and help them recognize the continued contributions that local Letter Carriers have made in promoting a positive return to a normal way of life!

Along with the contact information provided below, we have included telephone/email scripts so participants, (Carriers, family, friends, neighbors, and customers), have a template they can use to get the message across to this Governor: ***“It’s Time To Give Letter Carriers A Shot!!!”***

***"It's Time To Give Letter Carriers A Shot!!!"***  
Vaccination Campaign

Hello,

I am, (name/or a Letter Carrier), who delivers for the U.S. Postal Service in one of the many communities in Massachusetts. The Governor is preventing me, as well as my sisters and brothers from the opportunity to receive one of the COVID-19 vaccines. We have been patiently waiting to be placed on that list, which has already been recommended by the CDC, yet other groups and organizations are now leapfrogging over postal workers who have bravely and diligently worked over the past year, and never stopped delivering service to our Massachusetts customers at the risk of their own health and well-being.

Please tell the Governor to do the right thing, and afford Letter Carriers the opportunity to protect themselves, their families, and their customers by placing us on the list to be vaccinated today!

Thank you,

Vaccination Campaign

Hello,

I am a, (family member, friend, and customer, constituent), who is contacting the Governor's office to express my disappointment that Letter Carriers in Massachusetts are being unfairly prevented from receiving one of the COVID-19 vaccines. For over one-year these men and women have continued to serve all the communities in this Commonwealth, in the midst of this global pandemic. These Postal Workers have been patiently waiting to be placed on that list, which has already been recommended by the CDC, yet other groups and organizations are now leapfrogging over them while they continue to put their own health and well-being on the line for their customers every day!

Please tell the Governor to do the right thing, and afford our Letter Carriers the opportunity to protect themselves, their families, and the communities they serve, by placing them on the list to be vaccinated today!

Thank you,
